INFORMATION

Microfilm #1237 (Ohio, Lucas Co. - Toledo Wards) at the Toledo-Lucas County Public Library was used to compile this index.

The page numbers are stamped numbers with two exceptions. Page 432 is handwritten and there is no number on page 509.

The "B" page is the page following the printed number page. "C" is used when the numbered page has been duplicated. BE AWARE when you see a "C" there is duplication of pages and order is confusing.

Sometimes a family is not listed together. Two or three are at the bottom of a page and the rest of the family will be two or three pages following at the top. It appears the pages were shuffled before numbering. The only problem it presents is when trying to figure who was in a household from the index. If you think you found your family but several are on page 309, for example, and others are on page 312, don't be too concerned.

PLEASE READ THE NOTES BELOW - THEY MAY SAVE YOU SOME FRUSTRATION!

The FIRST column is the SURNAME:

- + - after the surname denotes Mulatto
- * - after the surname denotes Black
- ^ - after the surname denotes Indian

The SECOND column is the GIVEN NAME:

When initials were used instead of a name you will find a dash and "m" for male and "f" for female

The THIRD column is AGE, BIRTHPLACE, WARD NUMBER AND PAGE NUMBER:

eg: 40/Ire/8/491
or: 40 (age)/Ire (born in Ireland)/8 (Ward 8)/491
(found on page 491)

See LIST OF ABBREVIATIONS for those used denoting birthplace

For age: 0 is six months on less
1 is 7 months through one year

WARD 1

Pages 131 - 179B - Taken 8 June 1870

Page 142 is printed twice; page 151 is printed twice

WARD 2

Pages 180 - 236 - Taken: 22 June 1870

Census taker became careless on pages 218-233; He gave occupations to toddlers so also may have birthplaces wrong. Spelling also poor on above cited pages.

WARD 3

Pages 237 - 290B - Taken: 1 June 1870

WARD 4

Pages 291 - 352B - Taken: 1 June 1870

WARD 5

Pages 353 - 420B - Taken: 1 June 1870

Worse ward in city for errors!

Page 394B is duplicate of page 393B; page 394 is also repeated

Census taker's handwriting is nothing more than scribbling much of the time so a lot of guess work was used deciphering it. Many ages are probably off as he made a 2 and 3 undistinguishable from each other. If I wrote 32 and you think your ancestor should have been 22, you are probably correct.

The census taker also left out letters, especially vowels, in many, many names. Eg: Albrt; Mller. Take this into consideration when looking for names. I have tried to cross reference where obvious. He didn't finish many names - just scribbled a line out such as Christ----

"e's" and "i's" are easily mistaken; "d" often looks like "al"; rarely was a "t" crossed but it does look different than an "l"; "n's" and "r's" at the end of a name are usually scribbles.

WARD 6

Pages 421 - 443B - Taken: 9 July 1870

The page number "432" is handwritten

Starting at page 436 the census taker uses only Native or Foreign for birthplace

WARD 7

Pages 444 - 489B - Taken: 10 August 1870

WARD 8

Pages 491 - 527 - Taken: 13 July 1870

No number written or stamped on page 509
